

How does the course work?

When you register for the course, we will:

- Send you an enrolment email with a link to complete the enrolment process. Each participant needs to complete an enrolment separately. You will need a USI at this point if you want to get a certificate. If you do not want to receive a certificate you will still need to enroll separately- just let us know that you do not want certification. Payment is taken at this stage for the majority of our courses.
- Once enrolled you will receive an invitation to our e-Learning platform 2-3 weeks out from your training day.
The Getabout e-learning platform is easy to use with a comprehensive dashboard to navigate your way through the course requirements. You will need either a smart phone, laptop or other device, and your own accessible email address. The e-Learning platform has several resources including video and printed material that you can use to help you in your training or even after it
- You will receive this invitation even if you do not want a certificate so that you can access these resources - it is a good idea to also look at the assessments even if you do not intend to finish them as they are designed to help you with your training.

Before your training day:

- Explore the course resources.
- Have at least one attempt at the listed assessments or worksheets.

On the scheduled day of your training (face- to-face training day):

- Bring your 4WD vehicle (4WD capable of low range,) for our 4WD Courses and your tow vehicle and caravan or trailer if you are doing a towing course.
- Your instructor will be on hand to review your pre-learning tasks and answers and discuss any questions – then it's time to get behind the wheel.
- Your instructor will support you to develop your skill sets and complete your practical assessment.
- You may be required to access your e-learning on the day.

After your training day:

- If you are getting a certificate, once you have received satisfactory results for the course elements you will just need to complete your cover sheet which will consolidate your overall course outcome.
- Enjoy your 4WD or towing experience in safety and with confidence.
